## PROJECTS

### da.ily - Study Planner Web App

HTML, CSS, JavaScript, Express.js, PostgreSQL

<https://da-il.yx.zy/>

- Led frontend development with custom themes, responsive layouts, and mobile/tablet friendly navigation (hamburger menu, popups, favicon)
- Designed and implemented a PostgreSQL database schema and Node.js/Express backend with routing and user authentication, allowing for user accounts and data persistence.
- Built and integrated interactive study tools in JavaScript including a Pomodoro timer, scheduling interfaces, and user progress tracking; deployed as a full-stack web app using Render and Neon

### NYC Fresh Finder - Web App

HTML, CSS, JavaScript, Leaflet.js, Express.js

[GitHub Repo](https://github.com/satyamdharn8/fresh-finder)

- Designed the end-to-end UI/UX flow and prototypes using Figma and Adobe Illustrator.
- Built all frontend pages in HTML/CSS and implemented interactive JavaScript components including login forms, review system, dynamic bookmarks, and compare tiles, integrated with an Express.js backend.
- Led development of alert, review, and other interfaces to ensure consistent UX across all platforms.

### Discord Utility Bot Template

Python, discord.py

<https://github.com/satyamdharn8/discord-bot>

- Independently developed a modular Discord bot with music playback (YouTube via yt-dlp), real-time weather updates, moderation tools, and fun slash commands using discord.py in Python
- Implemented secure commands, environment-based API key management for private deployment, and logging for message edits
- Deployed bot for open-source access, allowing for testing and private use, structured to allow for additional commands and features to be implemented (on top of existing features)
