Hunter College – CUNY   New York City, New York
B.A. Computer Science *GPA: 3.64*   August 2022 - May 2026
Coursework: Software Analysis and Design 1-3, Practical Web Development,
Operating Systems, Discrete Structures, Computer Architecture 1-2, Computer Theory

Brooklyn Technical High School   Brooklyn, New York
Advanced Regents Diploma *GPA: 4.0*   September 2018 - June 2022

WORK EXPERIENCE

Abercrombie & Fitch Co.   New York City, New York
Stock Associate (Part-Time)   June 2023 - December 2024

- Responsible for the restocking of merchandise on the sales floor in a timely and effective manner.
- Processed and handled incoming shipments, regularly performing quality checks and replenishing the inventory.
- Prepared online orders to ship/get picked up from the store.
- Collaborated closely with associates to ensure the maintenance of the store, developing important cooperation skills.
- Assisted customers on the sales floor.

Private Tutoring   Queens, New York
SAT and Homework Tutor   August 2021 - June 2022

- Worked as a private tutor to bring my students to a level beyond their grade.
- Made sure students were turning in their work on time and understanding the material.
- Helped raise students GPA from failing to an honors

PROJECTS

NYC Fresh Finder – Food Access Website *HTML, CSS, JavaScript, Leaflet.js, Express.js*
https://nycfreshfinder.com/

- Collaborated with a team to build a community-focused web app that helps NYC residents locate affordable food resources and track grocery prices in real time.
- Developed a responsive front-end UI which incorporates Leaflet.js to map food deserts, food pantries, and farmers markets by borough.
- Supports community organizers and policymakers with live food access insights for decision-making.

da.ily – Study Planner Website *HTML, CSS, JavaScript*   https://satyamd8.github.io/da.ily/
- Built a web-based productivity tool with a team, including features like study session tracking, Pomodoro timers, and profiles.
- Designed modules for a progress tracker, study schedules, and personalized environments using music and visuals.

Discord Utility Bot Template *Python, discord.py*   https://github.com/satyamd8/discord-bot
- Developed a feature-rich Discord bot with music playback (YouTube via yt-dlp), real-time weather updates, moderation tools, and fun slash commands.
- Implemented logging for message edits and .env-based secure API key management for private deployment.
