EDUCATION & CERTIFICATES

Hunter College – CUNY

B.A. Computer Science, *Expected May 2026* | GPA: 3.67

Dean's List: *Fall 2022 – Fall 2025 (All semesters)*

Coursework: Software Analysis and Design, Practical Web Development, Operating Systems, Cloud Computing, Discrete Structures, Computer Architecture

New York City, New York

August 2022 - May 2026

Brooklyn Technical High School

Advanced Regents Diploma GPA: 4.0

Brooklyn, New York

September 2018 - June 2022

CodePath Tech Fellow

Certificate of Leadership

Fall 2025

EXPERIENCE

CodePath

Tech Fellow – Web Development & Applied AI Engineering

New York City, New York

September 2025 – Current

- Supported 2000+ students enrolled in the Web Dev and Applied AI Engineering courses through providing technical guidance on HTML, CSS, JavaScript, AI-powered workflows with agents and LLM tools, and Machine Learning fundamentals.
- Led live breakout sessions to debug code, answer technical questions, and guide students through coding exercises by breaking down problems and bringing them to the solution.
- Mentored students through building web applications and AI-driven tools, helping them implement agentic workflows where they collaborate and build AI-centered programs.
- Collaborated with instructors and other tech fellows to facilitate labs/projects, review technical challenges, and foster a learning environment to support students of any background or experience.

Abercrombie & Fitch Co.

Stock Associate (Part-Time)

New York City, New York

June 2023 - December 2024

- Responsible for the restocking of merchandise on the sales floor in a timely and effective manner.
- Processed and handled incoming shipments, regularly performing quality checks and replenishing the inventory.
- Developed strong communication and teamwork skills through collaboration with associates and customer assistance.

PROJECTS

da.ily – Study Planner Web App *HTML, CSS, JavaScript, Express.js, PostgreSQL*

<https://da-ily.xyz/>

- Led frontend development with custom themes, responsive layouts, and mobile/tablet friendly navigation (hamburger menu, popups, favicon)
- Designed and implemented a PostgreSQL database schema and Node.js/Express backend with routing and user authentication, allowing for user accounts and data persistence.
- Built and integrated interactive study tools in JavaScript including a Pomodoro timer, scheduling interfaces, and user progress tracking; deployed as a full-stack web app using Render and Neon

NYC Fresh Finder – Web App *HTML, CSS, JavaScript, Leaflet.js, Express.js*

[GitHub Repo](#)

- Designed the end-to-end UI/UX flow and prototypes using Figma and Adobe Illustrator.
- Built all frontend pages in HTML/CSS and implemented interactive JavaScript components including login forms, review system, dynamic bookmarks, and compare tiles, integrated with an Express.js backend.
- Led development of alert, review, and other interfaces to ensure consistent UX across all platforms.

Discord Utility Bot Template *Python, discord.py*

<https://github.com/satyamd8/discord-bot>

- Independently developed a modular Discord bot with music playback (YouTube via yt-dlp), real-time weather updates, moderation tools, and fun slash commands using discord.py in Python
- Implemented secure commands, environment-based API key management for private deployment, and logging for message edits
- Deployed bot for open-source access, allowing for testing and private use, structured to allow for additional commands and features to be implemented (on top of existing features)

SKILLS & INTERESTS

Programming Languages: C++, Java, Python, JavaScript, TypeScript

Frontend: HTML, CSS, React, DOM Manipulation, Responsive Design

Backend & Databases: Node.js, Express.js, REST APIs, PostgreSQL, SQL, Relational Database Design,

Tools & Platforms: Git, GitHub, Bash, Agentic Workflows, Windows, Figma, Adobe CC Suite
